

Full Stack Developer Intern Position at Techantum

Full Stack Developer Intern / Fresher

Web, Mobile & SaaS Product Development

About Techantum

Techantum is a technology company focused on building modern digital products for businesses worldwide. We specialize in designing and developing scalable digital solutions that help businesses grow through technology.

Our Expertise	Our Expertise
 CMS Websites	 Mobile Applications
 Enterprise Web Applications	 SaaS Platforms
 AI-Powered Solutions	 API Integrations
 Business Automation	 UI/UX Design & Development

Our team builds secure, scalable and high-performance applications using modern technologies, agile methodologies and industry best practices.

Position Overview

Item	Details
Position	Full Stack Developer Intern / Fresher
Experience	0 – 1 Year
Qualification	Any Graduate or Post Graduate
Employment Type	Internship / Full-Time (Based on Performance)
Work Mode	Full Time from office
Department	Product Engineering

What You'll Build

You will work on real client projects and in-house products across multiple business domains.

Web Development	Mobile Development
Corporate Websites	React Native Applications
CMS Platforms	Business Applications
Enterprise Portals	Customer Mobile Apps
Admin Dashboards	Cross Platform Solutions
SaaS Products	Internal Business Apps

Technology Stack

Category	Technologies
Frontend	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS
Backend	Node.js, Express.js
Database	MongoDB, PostgreSQL, Firebase Firestore
Mobile	React Native
Authentication	Firebase Authentication, JWT
API Development	REST APIs, Third-party API Integrations
Version Control	Git, GitHub
Deployment	VPS, Nginx, PM2, Vercel
Development Tools	VS Code, Postman, Figma, Firebase Console

Roles & Responsibilities

Frontend Development	Backend Development
Build responsive user interfaces	Develop REST APIs

Create reusable React components	Implement business logic
Integrate APIs with frontend	Database integration
Optimize application performance	Authentication & Authorization
Ensure responsive design	API testing & debugging

Collaboration	Quality & Standards
Work with UI/UX Designers	Write clean, maintainable code
Coordinate with Project Managers	Follow coding standards
Participate in Daily Standups	Debug and resolve issues
Learn from Senior Developers	Maintain technical documentation

Required Skills

Technical Skills	Professional Skills
HTML5 & CSS3 Fundamentals	Positive Attitude
JavaScript Basics	Strong Logical Thinking
React.js Basics	Problem Solving
REST API Concepts	Good Communication
Database Fundamentals	Team Collaboration
Git Basics	Self-Motivated & Eager to Learn

Preferred Skills

 Frontend Technologies	 Backend Technologies
 React.js	 Node.js
 Next.js	 Express.js

 TypeScript	 REST APIs
 Tailwind CSS	 JWT Authentication

 Database & Cloud	 Development Tools
 MongoDB	 Git & GitHub
 PostgreSQL	 Postman
 Firebase	 VS Code
 Firestore	

 Mobile Development	 AI Productivity Tools
 React Native	ChatGPT
Cross Platform Development	GitHub Copilot
Mobile API Integration	Cursor AI
Push Notification Basics	Claude AI

Note: Prior experience in all technologies is **not mandatory**. We value your willingness to learn, logical thinking, and passion for software development.

What We Expect

Technical Mindset	Professional Behaviour
Passion for Software Development	Ownership of Assigned Work
Strong Problem-Solving Skills	Positive Team Player
Interest in Modern Technologies	Punctual & Disciplined
Continuous Learning Mindset	Good Communication Skills
Ability to Learn Quickly	Willingness to Accept Feedback

What You'll Learn

Technical Exposure	Professional Exposure
Enterprise Software Architecture	Agile Development Process
SaaS Product Development	Sprint Planning & Execution
REST API Development	Code Reviews
Cloud Deployment	Team Collaboration
Database Design	Client Requirement Understanding
Performance Optimization	Industry Best Practices

Ideal Candidate Profile

We are looking for passionate, enthusiastic, and self-driven individuals who are eager to build modern software products and grow their careers in Full Stack Development.

If you enjoy solving real-world problems, writing clean code, collaborating with talented teammates, and continuously learning new technologies, Techantum is the right place to begin your professional journey.

We believe **attitude, curiosity, and commitment** are more valuable than prior experience. If you're ready to learn, innovate, and build impactful digital products, we'd love to hear from you.
